

MAXFIT™ Sizing Template

1. Place left hand palm down.
2. Align outside edge of hand with vertical line on left.
3. Take a pen or pencil and mark a line along the inside of the hand near the thumb (as shown below).
4. Remove hand and choose the **SMALLEST** size closest to your line. For example, if your line is between Medium and Large, choose Medium because the material is designed to stretch to give the best fit.
