

Sell What Works.

INTRODUCING **MAXFIT™** WITH Thinglove™ TECHNOLOGY

Industrial Quality Now Available For Your Customers

All of our customers are looking for a new and innovative product that's a great value. **O'Neill Innovations**, the leader in comfort technology, is proud to introduce the most comfortable glove available on the market today, **MAXFIT™**. Our application of advanced technology and the innovative Thinglove™ construction allow us to offer a superior, industrial-quality glove at an affordable price.

comfort

The design, contouring fit and lightweight construction of the **MAXFIT™ glove** actually draws away perspiration and allows your hands to “breathe”, even during the summer.

grip

Our production process and advanced material technology provides **MAXFIT™ gloves** with a better grip to a wider variety of surfaces, for example: cardboard, glass, metal, plastic, wood and other finished surfaces.

touch

MAXFIT™ glove with Thinglove™ construction allows precise movement and control in performing even the most delicate tasks. This glove protects your hands and is a skin-friendly alternative that does not contain latex – a material known to cause allergic reactions in some people.

Hand Healthy and
Skin Friendly

NO Latex

NO Nitrile

NO Natural Rubber
